EVO-SBK KTT-2700 STM DRY CONVERSION KIT FOR DUCATI SUPERSPORT 939

Looking for the best satisfaction of Ducati bikers, we offer a dry conversion kit for Ducati Hypermotard 950, to let them enjoy the performances of STM dry slipper clutches.

The kit includes the following parts: a new carter, the slipper dry clutch, the **STM basket 48** and STM disks.

“Evoluzione SBK” slipper clutch

Please note that the conversion does not exclude the possibility of returning to the original configuration in oil bath.
